EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brent E. Vecchia on February 22, 2005.

The application has been amended as follows: The claims have been amended as follows:

Claims 1-7,11-13,15-19, and 25-29 are canceled.

The following is an examiner's statement of reasons for allowance: The combination of features independent claims 45,48,51,57,63,64,65,66,67, and 68 were not found in the prior art as follows: the prior art comprises macroinstructions that access packed operands where the operands are divided into portions and corresponding portions of the data stored corresponding portions of operands stored in logical registers. The prior art also comprises performing floating point operations on data stored corresponding fields of stored operands where two operations were performed in parallel on data stored in corresponding portions of registers. However the independent claim 45 comprises the combination of additional limitations: macroinstruction that specifies first and second registers that respectively store 128-bit packed data operands, each of the first and second 128-bit packed data operands have

four 32-bit single precision floating elements; performing an operation specified by the single microinstruction on a first and second plurality of corresponding one of 32-bit single precision floating point data elements of the first and second 128-bit packed data operand, at different times using the same circuit, to generate a first and second plurality of resulting data elements. The other independent claims (claims 48,51,57,63,64,65,66,67, and 68) each comprise variations to this combination of features. Each of the combination of features in the respective independent claims was not found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Coleman whose telephone number is (571) 272-4163. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie Chan can be reached on (571) 272-4162. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
